Taking Measurements:

There are many ways to measure for a door replacement, but Elixir recommends you measure your rough opening and select the replacement size which is closest to it.

For example, your rough opening measures 32-1/4" x 76-1/4". ALWAYS BACK DOWN TO THE NEAREST SIZE and order size 32" x 76".

To determine if your door is right or lefthanded, simply look at it from the outside of the home to see which side the hinges are on.
